

## Tester specialized on continuous testing (full-time, f/m/x)

Planblue is a diverse team of visionary entrepreneurs and engineers whose mission is to protect, explore and reveal the unknown 95% of our ocean by using cutting edge technology. We have developed our planblue technology which consists of AI backed software coupled with an underwater camera system and allows automated systematic monitoring of seafloors (e.g., coral reefs, lakes, oceanic shelves), providing geo-referenced maps. The maps can be used for various applications, for underwater constructions (e.g. off-shore wind), but also aid in reducing the ecologic and economic impact of e.g. climate change or plastic waste in the ocean.

Our team currently goes through an exciting time. For us, new ideas and thinking outside of the box are highly valuable, as they have led to our recent successes. We all have different fields of expertise and responsibilities, but still strongly believe in teamwork to reach our overall goals. Bremen, where we are located, is a hotspot for state-of-the-art underwater technologies and offers a great lifestyle.

To grow planblue further, we are looking for a full-time **Tester specialized on continuous testing**:

### Your responsibilities will include:

- Support the team to achieve high testability
- Specify and realise continuous testing and delivering for
  - AI pipelines
  - embedded systems
  - web services
- Define with the team testable stories, including acceptance criteria
- Decide on continuous testing / delivering and AI model monitoring approaches
- Design, develop and monitor these systems at multiple test levels
- Extract, pre-process and visualize test data

### Qualifications we are looking for:

- Degree in computer science
- 3+ Years of experience in automating tests for production software
- Advanced knowledge in a scripting language
- Conceptual and structural thinking
- Self-responsibility and openness
- A solid grasp on tools, methods and cloud services for continuous testing

### What we offer:

- Apply your tester and coder mindset to help our oceans
- A bright office between Unisee and Mensa with free drinks, organic fruits, a shower and music
- Flexible working and home office hours
- Free diving courses, a lot of diving gear and business trips to diving spots
- High-end hardware of your choice
- Access to multiple fitness, yoga and other sports studios (Hansefit)
- Attending in workshops, conferences and international research projects
- Be part of a international entrepreneurial group of people who strive for diversity

### Does this sound interesting to you?

We look forward to receiving your motivation letter, CV and/or other information you might find relevant. Apply at [planblue.join.com/jobs/1417071-tester-specialized-on-continuous-testing](https://planblue.join.com/jobs/1417071-tester-specialized-on-continuous-testing)
